

# SENTECH CORPORATE PROFILE

---

SENTECH is a South African based digital infrastructure and content delivery company providing services in South Africa and the African continent.

SENTECH has wealth of strategically positioned infrastructure to provide coverage to over 80% of the population. The infrastructure enables SENTECH to provide facility leasing and co-location on our masts and our 180 sites enable us to provide connectivity and infrastructure services to the retail, Telcos and Public sectors. We provide broadcast transmission services to all commercial and public broadcasters including over 150 Community Radio Stations countrywide daily.

As holder of Individual Electronic Communications Network Services (I-ECNS) and an Individual Electronic Communications Services (I-ECS) the company is licensed to provide international voice-based telecommunications and multimedia services.

SENTECH is a B-BBEE level 1 South African state-owned company and leading provider of electronic communications network services to the country's broadcasting and communications industry. SENTECH derives its mandate from legislation, particularly the SENTECH Act and the Electronic Communications' Act (ECA).

## Video and Audio Content

Provision of video and audio content infrastructure and platforms to content providers in South Africa and Africa through DTH, DTT, SENTECH Apps, Set-Top-Boxes (AI enabled) and 5G broadcasting).

## Towers

Facility leasing and co-location on our mast will also continue. Providing Managed infrastructure of both Passive and active infrastructure solutions with value added services for customers.

## Broadband

Connecting households, clinics schools and communities in South Africa through Satellite (VSAT), Fixed Wireless, 5G, Cloud services.

## Data Centre Infrastructure Provider

SENTECH currently offers tier 2 data centre services for customers and is in the process of upgrading to a tier 3 data centre to offer enterprise type cloud and infrastructure hosting services.

## Satellite Operations

As a Communication Satellite provider for broadband and broadband connectivity for South Africa and Africa, SENTECH is working on the development of the Pan African satellite.

---

## Establishment

SENTECH was corporatised as a wholly owned subsidiary of the South African Broadcasting Corporation (SABC), in 1992. In 1996, SENTECH Act, No. 63 of 1996 was amended, converting SENTECH into a separate public entity responsible for providing broadcasting signal distribution services as a common carrier to licensed television (TV) and radio broadcasters. Our ownership of the largest infrastructure in the country for terrestrial signal distribution for both TV and radio enables us to offer wholesale services on an equitable, non-discriminatory, and non-exclusive basis (i.e., as a common carrier).
