Appointment of a Service Provider to supply, deliver and install Three (3) 6-meters containers for storage facilities in the Durban OC

1. BACKGROUND

Sentech is a state-owned company and is the largest broadcasting signal distributor in South Africa. Sentech is a licensed Electronic Communications Network Service provider in South Africa. It currently operates many telecommunication networks for Satellite, Television, Radio, Internet and more. As such, Sentech is a global enabler of broadcasting and digital content delivery.

Sentech is looking for a service provider to provide to supply, deliver and install three six (6) metres containers for a storage facility for the construction team and Rigging Team in the Durban Sentech OC Offices within the Eastern Region.

SCOPE OF WORK

Scope Of Work
<p>2.1. Scope and Technical Specifications</p> <p>This Technical Specification covers the general description of technical aspects of the work, including a detail description of works, sites, and method statements.</p> <p>The scope of works for supplying, deliver, and install container for storage facilities.</p> <ul style="list-style-type: none"> • The purpose is to provide storage facilities for the rigging and construction teams that are based in the Durban OC. • The price of the transportation of the container should be factored into the total price. • The container is to be wind and watertight. • The contractor is to supply, deliver and install three 6-metre-long shipping containers. <p style="text-align: center;">Interior</p> <ul style="list-style-type: none"> • The containers may need to be modified before they may be delivered to Sentech premises. • The interior modification includes shelving of the interior with heavy duty industrial metal shelves with a capacity of 300kg. Shelving to be 6 metre in length and 2metres in height. • The modifications include installing centrally located industrial roller doors for all three containers. • The industrial roller doors should be 3metres in length and be lockable. • Rubberised floors. <p style="text-align: center;">Exterior</p> <ul style="list-style-type: none"> • Supply and installation of gravel foundation for the container storage area. • Removal of topsoil should be factored into the final price. After removal of the topsoil to allow for 50mm excavation, the ground must be compacted. The gravel bed foundation must also be compacted to increase the strength of the foundation. • The type of material to be used is a commercially sourced crushed stone • The gravel foundation dimensions are: 6.1m in length and 3.1m in width and 150mm in depth. • The depth of the foundation is to be 150mm with 100mm exposed above of the natural ground level and the 50mm being below the natural ground level. • The exterior of the container should be painted with a white alkyd enamel paint.

2.2. SITE ACCESS

- The site may be accessed by the means of appointment only.

2.3. INCLEMENT WEATHER DELAYS CLAIMS

Most of Sentech’s high masts are situated on mountain tops. In most of the areas where Sentech masts are located the weather conditions are very unpredictable. The duration of major mast works is very dependent on the weather, because mast work can only be performed under specific good weather conditions.

The contractor will therefore be required to keep a daily diary of the weather conditions. The non-working days due to inclement weather while the contractor is on site subsequent to commencement of the work will be regarded as an extension of time for the duration of the works. The contractor will therefore be required to submit the programme of the works detailing as to the duration it will take complete the works on site.
